MANAGEMENT

FOUNDED & GOVERNED BY PHARMACEUTICAL PRODUCT MANUFACTURERS

MEMBER-CONTROLLED

The Pharmaceutical Product Stewardship Work Group **represents our members and enables them to guide organizational policy**. Each member has a voice - and a vote - that drives our key strategic decisions.

MEMBER-FOCUSED

Our education and outreach efforts include the nation's most comprehensive website for patient education, **MyOldMeds.com**. We highlight alternative safe disposal options, supporting the members' position that **expansion of mandated household drug and sharps take-back programs is not necessary**.

NON-PROFIT

We are a non-profit association which **allocates surplus revenue back to our members**. We have no incentive to increase the scope of our programs, or to operate take-back programs that exceed mandatory requirements.

PPSWG & MED-PROJECT

PROVIDERS OF TURN-KEY COMPLIANCE SERVICES FOR MANDATED HOUSEHOLD
MEDICINE AND SHARPS TAKE-BACK PROGRAMS

OUR PRIORITIES

ONE-STOP COMPLIANCE

PPSWG's subsidiary MED-Project is **the only program operator with approved household medicine take-back plans in all jurisdictions** with operational mandated producer-funded take-back legislation.

MED-Project implements proven and reliable compliant take-back programs for household drugs and sharps, **keeping operational costs down, not maximizing profits**.

COST-EFFECTIVENESS

The representatives of member companies that make up our Board set priorities and approve program budgets: **PPSWG and MED-Project have no incentive to expand mandated take-back programs, and make managing cost and efficiency a top priority**.

Government mandates have grown to cover a population of more than 91 million residents, and our aim is to provide compliance in the most cost-effective manner.

OUR APPROACH

We are the only provider that is:

- ✓ Directed and governed by member companies: our **members make the decisions** on how we comply
- ✓ A non-profit member association that **allocates surplus revenue back to our members**
- ✓ Actively supporting efforts to **prevent expansion of take-back mandates**
- ✓ Able to meet mandated drug and sharps take-back **compliance obligations in all jurisdictions** with operational programs
- ✓ Focusing **public-facing messaging on proper use, storage, and disposal**
- ✓ Operating a cooperative business model where **pricing is shared** across all participating companies
- ✓ Representative of **over 395 companies** seeking mandated household drug and sharps take-back services
